

SDG Goal 3 Good health and well-being

SDG Target 3.7 By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration of reproductive health into national strategies and programmes

SDG Indicator 3.7.2 Adolescent birth rate

1. Name of data series	
Giving birth between 15 to under 20 years	
Compliant with SDG metadata: yes	SDG Metadata

2. Definition of indicator
The indicator measures the share of women giving birth between the age of 15 to under 20 years per 1,000 women of the same age group.
3. Comparison with SDG metadata (as of 05/2018)
Equivalent with SDG indicator metadata.

4. Data description	
The data on women giving birth between 15 to under 20 years stem from the statistics of natural population change. The birth rate is calculated by the age method, which measures the age of the women at the time of giving birth per 1,000 women in the same age group.	
5. Calculation method	
$\frac{\text{Giving birth between 15 to under 20} = \sum \text{Women aged 15-19 years giving birth (number)} \times 1,000}{\text{Women aged 15-19 years (number)}}$	
6. Unit of measure	Per 1,000 women of same age

7. Timeliness	8. Frequency
t + 8.5 months	Annual
9. Last regular revision	10. Revised period
Not applicable	Not applicable
