

SDG Goal 4 Quality education

SDG Target 4.3 By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university

SDG Indicator 4.3.1 Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months, by sex

1. Name of data series	
Participation rate of youths in formal and non-formal education and training in the previous 12 months	
Compliant with SDG metadata: yes, sub-indicator	SDG Metadata

2. Definition of indicator	
Participation rate of 15 to 24 years old persons in formal or non-formal education or training within the last 12 months. Formal education or training includes education provided by the system of schools, colleges, universities and other formal educational institutions whereas informal education or training covers any organized and sustained learning activities that do not belong to formal education.	
3. Comparison with SDG metadata (as of 10/11/2016)	
The indicator covers only the data for youths between 15 and 24 years of age in formal and non-formal education and training.	

4. Data description	
The data is taken from the of the Microcensus (education section and total population). The Microcensus is an inquiry directed to households, designed to obtain information on the labour market and related issues through a series of personal interviews with a sample of 1 %. The Microcensus is designed as a multi-topic survey, integrating many different subject fields. The European Labour Force Survey (LFS) is integrated into the Microcensus and is harmonised in all EU member states. The sample and extrapolation of the sample data are based on the data of the 2011 Census.	
5. Calculation method	
$\text{Participation rate} = \frac{\text{Youths in education and training (number)}}{\text{total youths (number)}} \times 100$	
6. Unit of measure	%

7. Timeliness	8. Frequency
t + 7 months	Annual
9. Last regular revision	10. Revised period
Not applicable	Not applicable

11. Accessibility of source data
Education & Population: source data is calculated in special analysis, not publicly available
12. Metadata on source data
Education and Population – Microcensus 2016 (Only available in German): https://www.destatis.de/DE/Methoden/Qualitaet/Qualitaetsberichte/Bevoelkerung/einfuehrung.html
13. Related SDG data series (duplicate indicators or sub-indicators to same indicator)
4.3.1 Participation rate of adults in formal and non-formal education and training in the previous 12 months
