

SDG Goal 16 Peace, justice and strong institutions

SDG Target 16.1 Significantly reduce all forms of violence and related death rates everywhere

SDG Indicator 16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months

1. Name of data series	
Annual prevalence rate of physical assault	
Compliant with SDG metadata: yes	SDG Metadata

2. Definition of indicator
The indicator measures the share of the population that has been victim of a physical assault in the previous 12 months.
3. Comparison with SDG indicator (as of 10/11/2016)
The indicator is compliant with the SDG metadata.

4. Data description	
<p>The data is taken from the German Victimization Survey. The survey is telephone based with 35.503 observations for the year 2012. It is based on a random sample of the population living in private households, being 16 years or older and being available via telephone.</p> <p>Since people with relative high education levels are overrepresented in the sample and young adults (age 18-34) underrepresented compared to the general population, the answers were weighted to account for the unequal probability of taking part in the survey for these subgroups.</p> <p>For this indicator, the answer to the question whether an individual was at least once victim of a physical assault in the last 12 months was used.</p>	
5. Calculation method	
<p>Rate of physical assault</p> $= \left(\frac{\text{weighted number of persons being victim of a physical assault}}{\text{weighted total number of persons taking part in the survey}} \right) * 100$	
6. Unit of measure	%

7. Timeliness	8. Frequency
t + 2 years	Irregular
9. Last regular revision	10. Revised period
Not applicable	Not applicable

11. Accessibility of source data
<p>Victims of physical assault (Only available in German):</p> <p>https://www.bka.de/DE/Presse/Listenseite_Pressemitteilungen/2019/Presse2019/190402_DVS2017.html</p>
12. Metadata on source data
<p>Victims of physical assault (Only available in German):</p> <p>https://www.bka.de/DE/Presse/Listenseite_Pressemitteilungen/2019/Presse2019/190402_DVS2017.html</p>
13. Related SDG data series (duplicate indicators or sub-indicators to same indicator)
<p>16.3.1 Police reporting rate for physical assault</p> <p>For more information please contact:</p> <p>https://www.destatis.de/EN/Service/Contact/Contact.html</p>

SDG Goal 16 Peace, justice and strong institutions

SDG Target 16.1 Significantly reduce all forms of violence and related death rates everywhere

SDG Indicator 16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months

1. Name of data series	
Population who were victims of criminal offences	
Compliant with SDG metadata: no	SDG Metadata

2. Definition of indicator
The indicator measures the share of the population who was subjected to the total of criminal offences, attempted and completed.
3. Comparison with SDG indicator (as of 10/11/2016)
The indicator does not measure separately victims of physical, psychological or sexual violence. With regard to psychological violence, there is yet no consensus at the international level of the precise definition and there is as yet no generally well-established methodology to measure psychological violence.

4. Data description	<p>The data is taken from the Police Crime Statistics. The Police Crime Statistic covers known criminal offences, victims and suspects.</p> <p>Multiple counting is possible in regard to the number of victims. If a person is a repeatedly victim, it is counted multiple times.</p> <p>Data is calculated as a sum of the individual data sets of the Länder's criminal police bureaus.</p>
5. Calculation method	$\text{Population who were victims of criminal offences} = \frac{\text{Victims of criminal offences}}{\text{population}}$
6. Unit of measure	%

7. Timeliness	8. Frequency
t + 1 year	Annual
9. Last regular revision	10. Revised period
Not applicable	Not applicable

SDG Goal 16 Peace, justice and strong institutions

SDG Target 16.1 Significantly reduce all forms of violence and related death rates everywhere

SDG Indicator 16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months

1. Name of data series	
Victims of criminal offences	
Compliant with SDG metadata: no	SDG Metadata

2. Definition of indicator
The indicator measures the total count of victims of criminal offences.
3. Comparison with SDG indicator (as of 10/11/2016)
The indicator covers the total criminal offences (attempted or completed). It measures the total number of victims instead of the proportion of population.

4. Data description	
<p>The data is taken from the Police Crime Statistics. The Police Crime Statistic covers known criminal offences, victims and suspects.</p> <p>Multiple counting is possible in regard to the number of victims. If a person is a repeatedly victim, it is counted multiple times.</p> <p>Data is calculated as a sum of the individual data sets of the Länder's criminal police bureaus.</p>	
5. Calculation method	
$\text{Victims of criminal offences} = \sum \text{Victims of criminal offences}$
