

## SDG Goal 9 Industry, innovation and infrastructure

**SDG Target 9.a Facilitate sustainable and resilient infrastructure development in developing countries through enhanced financial, technological and technical support to African countries, least developed countries, landlocked developing countries and small island developing States**

**SDG Indicator 9.a.1 Total official international support (official development assistance plus other official flows) to infrastructure**

1. Name of data series	
<b>ODA and OOF (gross disbursements) to infrastructure</b>	
Compliant with SDG metadata: yes	<a href="#">SDG Metadata</a>

2. Definition of indicator
<p>The data series measures German official development assistance (ODA) and other official flows (OOF) for infrastructure. It is measured in gross disbursements of the resources to the partner country (versus commitments of resources).</p> <p>Official development assistance (ODA) is defined as aid provided by official agencies that promotes and specifically targets the economic development and welfare of developing countries.</p> <p>Other official flows (OOF) are defined as transactions by the official sector which do not meet the conditions for eligibility as ODA, either because they are not primarily aimed at development, or because they are not sufficiently concessional.</p> <p>For ODA and OOF flows, data on the sector of destination are recorded using 5-digit codes so called purpose codes. Infrastructure is identified by all the purpose codes starting with 2. These cover topics ranging from transport and storage over communications and energy generation, distribution and efficiency to banking and financial services.</p>
3. Comparison with SDG metadata (as of 12/07/2017)
<p>The data series provided is compliant with the global SDG Metadata. However it is important to note that the global SDG Metadata do not specify which purpose codes are to be used.</p>

4. Data description
<p>ODA is the resource flows to countries and territories on the OECD Development Assistance Committee (DAC) List of ODA Recipients and to multilateral development institutions that are:</p> <ul style="list-style-type: none"> <li>i. Provided by official agencies, including state and local governments, or by their executive agencies; and</li> <li>ii. Concessional (i.e. grants and soft loans) and administered with the promotion of the economic development and welfare of developing countries as the main objective.</li> </ul> <p>The DAC list of countries eligible to receive ODA is updated every three years and is based on per capita income.</p>

5. Calculation method	
ODA + OOF	
6. Unit of measure	Mn USD, constant prices (2016)

7. Timeliness	8. Frequency
t + 11 months	Annual
9. Last regular revision	10. Revised period
Not applicable	Not applicable

11. Accessibility of source data
OECD Development Finance Data: <a href="http://oe.cd/fsd-data">http://oe.cd/fsd-data</a>
12. Metadata on source data
General information on ODA as well as recent and future changes in methodology: <a href="http://www.oecd.org/dac/financing-sustainable-development/development-finance-standards/What-is-ODA.pdf">http://www.oecd.org/dac/financing-sustainable-development/development-finance-standards/What-is-ODA.pdf</a>  List of the OECD DAC purpose codes: <a href="http://www.oecd.org/dac/financing-sustainable-development/development-finance-standards/purposecodessectorclassification.htm">http://www.oecd.org/dac/financing-sustainable-development/development-finance-standards/purposecodessectorclassification.htm</a>  List of ODA recipient countries: <a href="http://oe.cd/dac-list">http://oe.cd/dac-list</a>
13. Related SDG data series (duplicate indicators or sub-indicators to same indicator)
9.a.1 ODA (gross disbursements) to infrastructure 17.2.1 Proportion of net ODA to GNI 17.2.1 Proportion of bilateral and imputed multilateral net ODA for LDCs to the GNI
