

SDG Goal 6 Clean water and sanitation

SDG Target 6.5 By 2030, implement integrated water resources

management at all levels, including through transboundary cooperation as appropriate

SDG Indicator 6.5.1 Degree of integrated water resources management

implementation

| | 1. Name of data series | |
|---|--|--------------|
| Ī | Degree of integrated water resources management implementation | |
| | Compliant with SDG metadata: yes | SDG Metadata |

2. Definition of indicator

The indicator measures the existence of policies and instruments ensuring the integrated management of water resources.

3. Comparison with SDG metadata (as of 11/07/2017)

The indicator is calculated following the method suggested in the SDG metadata.

4. Data description

Data stems from the in information in the country questionnaire for Indicator 6.5.1, reported by the Federal Ministry for the Environment.

The questionnaire consists of four sections with several questions within each section. Each answer is assigned a score between 0 (very low) and 100 (very high).

5. Calculation method

In a first step, the average score of each of the four sections is calculated by averaging all questions scores in each section. In a second step, the average of the four section scores is calculated to give the overall score for indicator 6.5.1.

| 6. l | Unit of measure | % |
|------|-----------------|---|
|------|-----------------|---|

| 7. Timeliness | 8. Frequency |
|--------------------------|--------------------|
| Not applicable | Triannual |
| 9. Last regular revision | 10. Revised period |
| Not applicable | Not applicable |

11. Accessibility of source data

Special analysis

12. Metadata on source data

Not available

13. Related SDG data series (duplicate indicators or sub-indicators to same indicator)

Not applicable
